Overview of the Opioid Data Dashboard

The New York State Department of Health (NYSDOH) Opioid Prevention Program developed this Opioid Data Dashboard to provide comprehensive data as a valuable tool for planning, identifying where communities are struggling, helping communities tailor interventions, and showing improvement over time.

[Opioid Data State Dashboard](#)
The state dashboard homepage displays a quick view of the most current data for 98 opioid-related indicators and compares them with data from other states available by socio-economic status. County data (maps, tables and bar and trend charts) are also available for most opioid tracking indicators.

[Opioid Data County Dashboard](#)
The county dashboard homepage includes the most current data available for 77 opioid-related indicators. Each county in the state has its own dashboard above.
